### **MAGNETIC SENSORS SMC-SMP SERIES AND MAGNETS**

A magnet is a material or object that produces a magnetic field. This magnetic field is invisible but is responsible for the most notable property of a magnet: a force that pulls on other ferromagnetic materials, such as iron, and attracts or repels other magnets.. A permanent magnet is an object made from a material that is magnetized and creates its own persistent magnetic field.

Providing a PDF of your artwork to your printing company solves the headaches! The fonts and images are embedded into the document (no need to gather them up to provide to the printer); PDF's display and print the same on all computers (PDF is an abbreviation for Portable Document Format; PDF's are compressed, so the file size is much smaller than their native art files.

A Lego minifigure, commonly referred to as a "minifig", or simply just "fig", is a small plastic articulated figurine, many of which are yellow and other skin tones, available as part of the construction toy Lego, produced by Danish toy manufacturer the Lego Group. They were first produced in 1978, and have become hugely successful, with over 3.7 billion produced, and the figure appearing in a ...

A. Analog meter - The analog VOM is a dial/needle movement with multiple switch settings and ranges on each setting. This meter usually requires "calibrating" of the scale before use. They normally consume batteries at a fast rate. B. Digital meter - The digital VOM uses a digital display to indicate the readings. Of the following types, the manual and autoranging are the most popular
