

a fire engine for pdf

A fire engine (also known in some territories as a fire truck or fire appliance) is a vehicle designed primarily for firefighting operations. The terms "fire engine" and "fire truck" are often used interchangeably; however in some fire departments/fire services they refer to separate and specific types of vehicle.. The primary purposes of a fire engine include transporting firefighters to an ...

Fire engine - Wikipedia

A wildland fire engine is a fire engine specifically designed to assist in fighting wildfires by transporting firefighters to the scene and providing them with access to the fire, along with water or other equipment. Most commonly used by the United States Forest Service, there are multiple types of wildfire apparatus which are used in different scenarios.
