The Insider Threat to Information Systems - pol-psych.com

Ponemon Institute's Research Report Page 5 The majority of companies have had a data breach due to a malicious or negligent employee. As discussed, 55 percent of respondents say an insider caused a security incident or data breach.

Managing Insider Risk through Training & Culture

The threat of attack from insiders, or an insider causing harm without malicious intent, is real and substantial. To prevent harm to their assets, historically, organizations focused on external-facing security mechanisms, such as firewalls, intrusion detection systems, and electronic building access systems.

Insider Threat - Software Engineering Institute

An insider is a member of any group of people of limited number and generally restricted access. The term is used in the context of secret, privileged, hidden or otherwise esoteric information or knowledge: an insider is a "member of the gang" hence knows things outsiders don't, including insider jargon.. In our complicated and information-rich world, the concept of insider knowledge is ...
