The sun’s golden glow is a vital life force which imbues us with strength, energy and a will to succeed. It is the sun that gives strength to the other planets, which is why this planet occupies a key role in astrology.

### **Planets – Sun - Astrology.com**

Astrology is the observation of the interplay between the planets and our Earth. (Astrologers call the Sun and

the Moon planets for the sake of convenience, although they are actually luminaries. From this point forward, "planets" refers to the planets and the sun & moon).
