"Sexually transmitted infections are a major problem in both developed and developing countries. Women are disproportionately infected with HIV during heterosexual intercourse, for instance, and an easy and discreet female-controlled microbicide could halt millions of infections worldwide," says Hanes. "But the mucus barrier is a challenge."

Our aim as the barrier-breakers is to bring this hopes to reality. We want to make women better and use them as tools to develop their nations. We hope to change the view in many developing countries that women are domestic slaves hence making them vulnerable to physical abuse and domestic violence.
