The focus on human capital as a driver of economic growth for developing countries has led to undue attention on school attainment. Developing countries have made considerable progress in closing the gap with developed countries in terms of school attainment, but recent research has underscored the importance of cognitive skills for economic growth.

Economic growth in developing countries: The role of human

Economic inequality covers a wide variety of topics. It can refer to either income distribution, measuring the amount of money people are paid, or the distribution of wealth, which captures the amount of wealth people own. Inequality among nations is covered in international inequality and countries listed by income inequality. For the United States, see United States income inequality, United ...
