Algebraic geometry is a branch of mathematics, classically studying zeros of multivariate polynomials. Modern algebraic geometry is based on the use of abstract algebraic techniques, mainly from commutative algebra, for solving geometrical problems about these sets of zeros.. The fundamental objects of study in algebraic geometry are algebraic varieties, which are geometric manifestations of ...

WisÅ,a, Poland August 20 – August 30, 2018. The topic of the forthcoming school: Nonlinear PDEs, their geometry, and applications. The goal of the forthcoming school is to present recent results in the theory of nonlinear PDEs, their geometry, and applications. The courses will stress a role of geometrical methods and especially methods of contact geometry to study nonlinear PDEs and methods ...

Nature and influence of the problems. Hilbert's problems ranged greatly in topic and precision. Some of them are propounded precisely enough to enable a clear affirmative or negative answer, like the 3rd problem, which was the first to be solved, or the 8th problem (the Riemann hypothesis). For other problems, such as the 5th, experts have traditionally agreed on a single interpretation, and a ...

I used this textbook in my Calculus I & II classes, in college, back in 1983-4. I actually studied this textbook, outside of class, and with the study problems, with answers in the back of this book, I learned much of calculus on my own!

The Development of Mathematics, in a Nutshell. Though mathematical knowledge is ancient, stretching back to the Stone Age, the evolution of mathematics to its current modern state has seen fundamental changes in concepts, organization, scope, outlook, and practice. Without understanding the evolution of mathematical thought, it is difficult to appreciate modern mathematics in its contemporary ...

The International Mathematics Olympiad (IMO, also known as the International Mathematical Olympiad) is an annual mathematics competition for high school students [IMO Article in Wikipedia]. It is one - in fact, the oldest - of the International Science Olympiads. The first IMO was held in Romania in 1959. The problems come from various areas of mathematics, such as are included in math curricula ...
