

circulatory system advanced pdf

This song teaches how the human circulatory system works, including the heart, lungs, blood, arteries, veins, and capillaries. By learning the organs and parts of this body system, students will be better prepared for more in-depth study on how each component functions.

Circulatory System - Song with Free Worksheets and Activities

Shock is the state of not enough blood flow to the tissues of the body as a result of problems with the circulatory system. Initial symptoms may include weakness, fast heart rate, fast breathing, sweating, anxiety, and increased thirst. This may be followed by confusion, unconsciousness, or cardiac arrest as complications worsen. Shock is divided into four main types based on the underlying ...

Shock (circulatory) - Wikipedia

Fetal pigs are unborn pigs used in elementary as well as advanced biology classes as objects for dissection. Pigs, as a mammalian species, provide a good specimen for the study of physiological systems and processes due to the similarities between many pig and human organs.

Fetal pig - Wikipedia

Looking at the issue from the other side, our standard view of a closed circulatory system is based on a system where a multichambered muscular heart pumps blood through parallel systemic and pulmonary circuits simultaneously (Figure 1(c)). Blood is pumped into major elastic arteries (the aorta and large arteries), which then flows into medium and small smooth muscle-based vessels and then ...
