Skin color is one of the most conspicuous ways in which humans vary and has been widely used to define human races. Here we present new evidence indicating that variations in skin color are adaptive, and are related to the regulation of ultraviolet (UV) radiation penetration in the integument and its direct and indirect effects on fitness.

A urine test strip or dipstick test is a basic diagnostic tool used to determine pathological changes in a patient's urine in standard urinalysis.

### **Urine test strip - Wikipedia**

Transient global amnesia (TGA) is one of the most striking syndromes in clinical neurology. Despite several new hypotheses concerning TGA pathogenesis—including psychological disturbances, personality traits, and hypoxic-ischaemic origin associated with venous congestion in memory relevant structures or small vessel changes—there is no consensus about the cause.

### **New insights into transient global amnesia: recent imaging**

The signs and symptoms below don't always mean a man has penile cancer. In fact, many are more likely to be caused by other conditions. Still, if you have any of them, see a doctor right away so their cause can be found and treated, if needed. The sooner a diagnosis is made, the sooner you can ...
