Indian Science and Engineering Journal (ISEJ) is an open access interdisciplinary peer-reviewed journal, covering a wide range of topics of research in all areas of sciences, engineering and technology.

American Scientific Publishers - New Titles at the

Title: The Opportunity for Machine Intelligence in Digital Medicine Biography: Greg Corrado, Director of Augmented Intelligence Research at Google is a senior researcher in artificial intelligence, computational neuroscience, and machine learning.

ECDP/NDP 2018

Computational Science is a rapidly growing multi- and interdisciplinary field that uses advanced computing and data analysis to understand and solve complex problems.

Journal of Computational Science - Elsevier

Text mining, also referred to as text data mining, roughly equivalent to text analytics, is the process of deriving high-quality information from text. High-quality information is typically derived through the devising of patterns and trends through means such as statistical pattern learning. Text mining usually involves the process of structuring the input text (usually parsing, along with the ...

Text mining - Wikipedia

Neuroinformatics is a research field concerned with the organization of neuroscience data by the application of computational models and analytical tools. These areas of research are important for the integration and analysis of increasingly large-volume, high-dimensional, and fine-grain experimental data.

Past Events. The Joint Workshop on AI in Health aims to bring together communities from Machine Learning and Artificial Intelligence applied in Health and Medicine.

AIH 2018 | Joint Workshop on AI in Health | Stockholm, Sweden

Open Access Initiative is committed to make genuine and reliable contributions to the scientific community without restricting the access of published content.

Free Access to Scientific Journals - Open Access Journals

Start using Julia to do simulations of quantum systems with many interacting particles! We will write a single-core exact diagonalization code which can handle a variety of models from quantum physics, using Julia to make it readable and performant.

JuliaCon 2017, Berkeley, CA

Superscripts on emphasis areas correspond to superscripts on that degree program's majors where the emphasis is applicable. See tables following the degree listing for Keys to the College and Degree abbreviations.

Degrees, Majors (Degree Programs), Emphasis Areas, Minors

Tsuruoka Lab.

Over the past decade, deep learning has achieved remarkable success in various artificial intelligence research areas. Evolved from the previous research on artificial neural networks, this technology has shown superior performance to other machine learning algorithms in areas such as image and voice recognition, natural language processing, among others.

Submission Method A journals make the final published version of all NIH-funded articles available in PubMed Central (PMC) no later than 12 months after publication without author involvement. The start date shown for each journal is the earliest publication date that meets this requirement. Enter a journal name below to see if it uses Submission Method A.
