

## **construction project management pdf**

Construction management (CM) is a professional service that uses specialized, project management techniques to oversee the planning, design, and construction of a project, from its beginning to its end. The purpose of CM is to control a project's time, cost and quality—sometimes referred to as a project's "triple constraint."

## **Construction management - Wikipedia**

Construction project management requires the skills and expertise of a traditional project manager but applied to the construction industry. Because a construction project is always shifting, an ideal construction project manager must possess a large array of experience and know-how to handle diverse teams and meet assorted objectives.

History 1885 to 2000. The origins of Lendlease Project Management & Construction date back to the establishment of C. W. Bovis & Co by Charles William Bovis in London in 1885. It changed hands in 1908 when it was acquired by Samuel Joseph and his cousin, Sidney Gluckstein.. Bovis was one of the few construction companies to go public in the 1920s, during which time it developed an extensive ...
