Combined with a non-glare panel, the UH55F-E display is designed to help businesses create memorable video walls even under ambient light. This new panel features a haze of 25%, rendering its non-glare performance to be significantly more advanced than panels that merely meet the penetration ratio standard.

AM-100 [Crestron Electronics, Inc.]

Centralized traffic control (CTC) is a form of railway signalling that originated in North America. CTC consolidates train routing decisions that were previously carried out by local signal operators or the train crews themselves. The system consists of a centralized train dispatcher's office that controls railroad interlockings and traffic flows in portions of the rail system designated as ...
