Exam Ref 70-487 Developing Windows Azure and Web Services

Web development is the work involved in developing a web site for the Internet (World Wide Web) or an intranet (a private network). Web development can range from developing a simple single static page of plain text to complex web-based internet applications (web apps) electronic businesses, and social network services. A more comprehensive list of tasks to which web development commonly refers ...

"Developing RESTful Services with JAX-RS 2.0, WebSockets, and JSON" packs quite a bit of content into 5 chapters and just over 100 pages. The first four chapters introduce new concepts and the fifth chapter includes two samples that integrate the concepts introduced in the first four chapters in realistic sample applications.

A developing country (or a low and middle income country (LMIC), less developed country, less economically developed country (LEDC), or underdeveloped country) is a country with a less developed industrial base and a low Human Development Index (HDI) relative to other countries. However, this definition is not universally agreed upon. There is also no clear agreement on which countries fit ...
