Department of Civil & Environmental Engineering & Earth

School of Earth & Sustainability. Integrating physical, biological, and social perspectives on our changing earth: At Northern Arizona University, we train undergraduate and graduate students to be leading researchers and practitioners in geology, environmental sciences, and sustainability, often collaborating across disciplinary boundaries. Our students spend time learning in the field ...

Environmental Research Letters covers all of environmental science, providing a coherent and integrated approach including research articles, perspectives and review articles.. All content is published on an open access basis under a CC BY licence and is free to readers, funded by an article publication charge.. Submit an article

Environmental Research Letters - IOPscience

From foundational science to new and novel research, discover our large collection of Physical Sciences and Engineering publications, covering a range of disciplines, from the theoretical to the applied.

ScienceDirect.com | Science, health and medical journals

Our research directly informs our teaching and the modules we offer cover theoretical, practical and applied aspects of environmental and Earth sciences. These modules lead our distance learning students to gain both undergraduate qualifications (Environmental Sciences, Earth Sciences and Geography and Environmental Science) and post-graduate qualifications (MSc Earth Science and MSc Science).

Environment, Earth and Ecosystem Sciences | Open University

At the College of Earth, Ocean, and Atmospheric Sciences, the landscape is our laboratory. Our explorations extend from local to global, from the core of the Earth through the seas and all the way to Mars, and from science to policy and practice.

College of Earth, Ocean, and Atmospheric Sciences | Oregon

BACKGROUND. The Environmental (or in-stream) Flow Needs (EFNs) of a stream are defined as the volume and timing of water required for effective functioning of the aquatic ecosystem " for fish and other needs.

Environmental Flow Needs " Science, Policy - EFN 2018

Denial of scientific findings is neither a new nor an unexplored phenomenon. In the area of environmental science and policy though, the research on denial has not been systematically summarized and analyzed.
