Measurement of Power Single-Phase Three-Wire System (Split Phase) The voltage and current detected by the METERS are the voltage and current applied directly to the Load. The indication on EACH METER is the power being delivered by the LINE to which the meter is connected.

Global Positioning System (GPS) satellites broadcast microwave signals to enable GPS receivers on or near the Earth's surface to determine location and time and derive velocity. The GPS system itself is operated by the U.S. Department of Defense (DoD) for use by both the military and the general public.. GPS signals include ranging signals, used to measure the distance to the satellite, and ...
