Voting behavior is a form of electoral behavior. Understanding voters' behavior can explain how and why decisions were made either by public decision-makers, which has been a central concern for political scientists, or by the electorate. To interpret voting behavior both political science and psychology expertise were necessary and therefore the field of political psychology emerged.

In industrial and organizational psychology, organizational citizenship behavior (OCB) is a person's voluntary commitment within an organization or company that is not part of his or her contractual tasks.. Organizational citizenship behavior has been studied since the late 1970s. Over the past three decades, interest in these behaviors has increased substantially.
