2 The Open Web Application Security Project (OWASP) is a worldwide free and open community focused on improving the security of application software.

Testing Guide 4 - OWASP

Root Cause Analysis. It is not good enough to conduct lessons learned after the AST program has been implemented. Instead, as soon as a problem is uncovered, regardless of the phase or the type of issue - whether it's a schedule, budget, or software defect problem - a root cause analysis should be conducted, so that corrective actions and adjustments can be made.

Metrics for Implementing Automated Software Testing
