Aluminium hybrid composites are a new generation of metal matrix composites that have the potentials of satisfying the recent demands of advanced engineering applications.

### **Aluminium matrix hybrid composites: a review of**

The effect of particle size on the modulus of an epoxy/silica composite has also been studied. Spherical and irregular-shaped silica particles have different mean sizes in the range of 2–30  $\mu\text{m}$ . Results show that the modulus remains constant with increasing particle size.

### **Effects of particle size, particle/matrix interface**

After first clarifying what mechanical shock is and why we measure it, basic requirements are provided for all measurement systems that process transient signals.

### **Selecting Accelerometers for and Assessing Data from**

Mechanical engineering is the discipline that applies engineering, physics, engineering mathematics, and materials science principles to design, analyze, manufacture, and maintain mechanical systems. It is one of the oldest and broadest of the engineering disciplines. The mechanical engineering field requires an understanding of core areas including mechanics, dynamics, thermodynamics ...

Self-healing materials are artificial or synthetically-created substances which have the built-in ability to automatically repair damage to themselves without any external diagnosis of the problem or human intervention. Generally, materials will degrade over time due to fatigue, environmental conditions, or damage incurred during operation. Cracks and other types of damage on a microscopic ...

Chitin is an insoluble linear polymer of  $\beta$ -1,4-linked N-acetylglucosamine residues. Chitin is the most abundant nitrogen-bearing organic compound found in nature: it is a common constituent of insect exoskeletons, shells of crustaceans and fungal cell walls. Chitin is the second most common biomass. It is produced by a variety of marine animals, insects and fungi.

Bachelor of Science Mechanical Engineering. Entering freshmen desiring to study mechanical engineering will be admitted to the Freshman Engineering Program. They will, however, be permitted, if they wish, to state a mechanical engineering preference, which will be used as a consideration for available freshman departmental scholarships.
