Local Funding Options for Public Transportation Victoria Transport Policy Institute 4 Florida MPOAC Transportation Revenue Study (Reich, Davis and Sneath 2012) summarizes a detailed study which analyzed key state transportation funding issues, identified and evaluated potential sustainable funding sources.

Local Funding Options for Public Transportation

A water supply system or water supply network is a system of engineered hydrologic and hydraulic components which provide water supply. A water supply system typically includes: A drainage basin (see water purification - sources of drinking water).; A raw water collection point (above or below ground) where the water accumulates, such as a lake, a river, or groundwater from an underground aquifer.

Water supply network - Wikipedia

Enabling environments for climate-smart agriculture (CSA) are the framework conditions that facilitate and support the adoption of climate-smart technologies and practices. They include policies, institutional arrangements, stakeholder involvement and gender considerations, infrastructure, insurance schemes, as well as access to weather information and advisory services.
