

### photocatalysis and environment trends pdf

Dear Colleagues, The photo-assisted catalytic reaction, which is conventionally known as "photocatalysis", is blooming in the field of energy and environment due to its multifaceted applications, such as in pollutant degradation, water splitting, fuel conversion, anti-microbial activities, etc.

### Special Issue "Emerging Trends in TiO<sub>2</sub> Photocatalysis and

1. Introduction. Due to the discharge of large amounts of metal-contaminated wastewater, industries bearing heavy metals, such as Cd, Cr, Cu, Ni, As, Pb, and Zn, are the most hazardous among the chemical-intensive industries.

### New trends in removing heavy metals from industrial

Photocatalysis with modified titania is a promising approach to improve both air and health quality. Modified titania with novel photocatalytic properties under indoor light irradiation leads to smart coatings, which are benchmark materials suitable for their indoor applications.

### Modified TiO<sub>2</sub> based photocatalysts for improved air and

Articles ASAP (As Soon As Publishable) ASAP articles are edited and published online ahead of issue. See all ASAP articles.

### Inorganic Chemistry (ACS Publications)

In article number 1706913, Ali Khademhosseini, Yu Shrike Zhang, and co-workers report a multichannel coaxial extrusion system for microfluidic bioprinting of circumferentially multilayered cannular tissues in a single step, which allows these perfusable cannular constructs to be tuned continuously between monolayers and multiple layers at regular intervals across the length of a bioprinted tube.

### Advanced Materials - Wiley Online Library

Going for gold: The mono- and di-chloroform solvates of [Au<sub>2</sub>( $\mu_2$ -1,2-bis(diphenylarsino)ethane)<sub>2</sub>](AsF<sub>6</sub>)<sub>2</sub> undergo single-crystal-to-single-crystal transformations that result in gain or loss of only one chloroform molecule and changes in the structure and luminescence of the digold cation.

Welcome to the Department of Chemistry in IIT Kharagpur. This department is one of the leading Chemistry departments of the country. With dedicated faculty members, modern laboratories, inter-disciplinary courses, vibrant research environment, ample opportunity for hands-on research experience, access to emerging areas such as intellectual property law, entrepreneurship, and career development ...
