Reducing risks, protecting people

The 2002 report describes the amount of disease, disability and death in the world today that can be attributed to a selected number of the most important risks to human health.

WHO | The world health report 2002 - Reducing Risks

This report reviews a range of strategies and policies for action covering sectors such as urban planning, transport, household energy and building design, food production and consumption, power generation, industry, and waste management. Reducing SLCP emissions can yield near-term benefits to health making measures particularly attractive to policy-makers, as well as slowing the pace of ...

WHO | Reducing global health risks through mitigation of

1. Introduction. Reducing risks to food security from climate change is one of the major challenges of the 21st century. The impacts of climate change on crop yield can already be detected in observed data (Lobell et al., 2011). Climate impact studies on crops predominate, but impacts on fisheries and livestock production are no less serious (Creighton et al., 2015, Herrero et al., 2015).

Behavior change communication, or BCC, is an approach to behavior change focused on communication. It is also known as social and behavior change communication, or SBCC. The assumption is that through communication of some kind, individuals and communities can somehow be persuaded to behave in ways that will make their lives safer and healthier.
