Visual thinking, also called visual/spatial learning or picture thinking is the phenomenon of thinking through visual processing.. Visual thinking has been described as seeing words as a series of pictures. [citation needed] It is common in approximately 60–65% of the general population. "Real picture thinkers", those who use visual thinking almost to the exclusion of other kinds of thinking ...

Methodology, theory, paradigm, algorithm, and method. The methodology is the general research strategy

that outlines the way in which research is to be undertaken and, among other things, identifies the methods to be used in it. These methods, described in the methodology, define the means or modes of data collection or, sometimes, how a specific result is to be calculated.

Context Migration trends in the Americas. Migration is not a new phenomenon, despite its seemingly sudden rise to global attention. The movement of people, whether within country borders or across international borders, has been occurring for centuries and has recently become a major feature of globalization.
