Societal collapse is the fall of a complex human society. Such a disintegration may be relatively abrupt, as in the case of Maya civilization, or gradual, as in the case of the fall of the Western Roman Empire.. The subject of societal collapse is of interest in such fields as history, anthropology, sociology, political science, and, more recently, complex-systems science.

Historically, breakdown theory dominated the sociological study of collective action. In the 1970s, this theory was found to be increasingly unable to account for contemporaneous events and newly discovered historical facts. Resource mobilization theory displaced breakdown theory as the dominant paradigm. Yet the evidence against breakdown theory is weak once a distinction is made between ...
