

stretched verb constructions in pdf

In grammar, a ditransitive verb is a verb which takes a subject and two objects which refer to a theme and a recipient. According to certain linguistics considerations, these objects may be called direct and indirect, or primary and secondary. This is in contrast to monotransitive verbs, which take only one object, a direct or primary object.. In languages which mark grammatical case, it is ...

A modal verb is a type of verb that is used to indicate modality – that is: likelihood, ability, permission, request, capacity, suggestions, order and obligation, and advice etc. They always take base form of verb with them. Examples include the English verbs can/could, may/might, must, will/would and shall/should. In English and other Germanic languages, modal verbs are often distinguished ...

Discipleship and the Shape of Belonging. Talk for Conference on Discipleship and the City (Villanova University, 3-5 October 2006) In addition to being highly honoured that you should have invited me to take part with you in this discussion of Discipleship and the City, I would like to say that I am personally both very grateful for the opportunity, and not a little nervous.
