Phlebotomy (from the Greek words phlebo-, meaning "vein", and -tomy, meaning "to make an incision of") is the process of making an incision in a vein with a needle. The procedure itself is known as a venipuncture. A person who performs phlebotomy is called a "phlebotomist", although doctors, nurses, medical laboratory scientists and others do portions of phlebotomy procedures in many countries.

### **Phlebotomy - Wikipedia**

It revolves right back to education," says Nancy Erickson, PBT(ASCP), an expert witness in more than 30 phlebotomy-related lawsuits. She says lack of education and failure to follow the standard of care cause the two most common patient complaints that lead to phlebotomy-related litigation: nerve damage and syncope.
