Frequently asked questions What is the WHO definition of health? Health is a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity.

## **WHO | Frequently asked questions**

Relativism is the idea that views are relative to differences in perception and consideration. There is no universal, objective truth according to relativism; rather each point of view has its own truth. The major categories of relativism vary in their degree of scope and controversy. Moral relativism encompasses the differences in moral judgments among people and cultures.
