World history or global history (not to be confused with diplomatic, transnational or international history) is a field of historical study that emerged as a distinct academic field in the 1980s. It examines history from a global perspective. It is not to be confused with comparative history, which, like world history, deals with the history of multiple cultures and nations, but does not do so ...

LEARNING OBJECTIVES By the end of this chapter, the reader will be able to: • Understand how health communication fits into the broader ecological model. • Select an overall approach to planning.

### **A Public Health Communication Planning Framework**

Economics (/ ˈ ɛ k ɒ n ɒ m ɪ k s, i ˈ ɛ k ɒ n ɒ m ɪ -/) is the social science that studies the production, distribution, and consumption of goods and services.. Economics focuses on the behaviour and interactions of economic agents and how economies work. Microeconomics analyzes basic elements in the economy, including individual agents and markets, their interactions, and the outcomes of interactions.
